EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Daryl Basham on June 22, 2007.

3. The application has been amended as follows:

A) Claim 3 has been amended to delete "as set forth in" and replace the recitation with -- of --.

B) Claim 13 has been cancelled without prejudice.

C) Claims 82 has been amended to delete "step 1) " and replace the recitation with - - step a) - -.

4. The following is an examiner's statement of reasons for allowance.

The claims are drawn to methods for determining canine gender by analyzing the amelogenin nucleic acid sequence for differences in lengths between SEQ ID NO: 22 and 23. The prior art teaches Genbank Accession Number AB080686 which is an amelx gene for amelogenin from a Labrador but fails to provide any amel y gene. Thus, the prior art fails to teach or suggest a comparison between the X and Y chromosomes in canine to determining the gender of a canis familiaris species.

Art Unit: 1634
